

RETRO MESSENGER CHAT

You've got chat.

Your messenger window is ready. Choose Streamlabs or StreamElements, install your chat, then make it yours. The next pages cover setup, customization and help.

WHAT'S INSIDE

- 01 One-click install — no files
- 02 Customize colors, fonts & layout
- 03 Troubleshooting & pro tips
- 04 Explore available retro stream kits

WIDGET PREVIEW

[+ LOVE THIS LOOK?](#)

Retro Messenger Full Stream Kit

Give your whole stream this messenger look. Matching alerts, scenes, goals, a game frame and panels. Use RETRO30 at Etsy checkout.

30% OFFCODE: **RETRO30**[See the Full Kit on Etsy](#)

STEP 1 - INSTALL

Before installing: Create a new Streamlabs widget theme, or back up your current widget. Installing into an existing theme can replace its Chat Box widget.

↓ **Install to Streamlabs**

1

Click the install button above

Select your new, dedicated theme when Streamlabs prompts you. The widget installs automatically. No files or code needed.

2

Customize in Custom Fields

Open your Streamlabs dashboard, go to Custom Widget, then open **Custom Fields** to adjust colors, fonts, sizes, and layout. Hit **Save Settings** when done.

3

Copy your Widget URL

Click the **Link** icon in the top-right corner of the Streamlabs widget editor to copy the URL to your clipboard.

4

Add to OBS as a Browser Source

In OBS (or Streamlabs Desktop), add a new **Browser Source** and paste your Widget URL. Set the width and height to match your layout.

PRO TIPS

Cropping: Hold ALT and drag the edges of the Browser Source in OBS to crop the visible area.

Color accuracy: Right-click Browser Source, then Properties, then Blending Method, then set SRGB Off

Chat cut off? Increase line height or reduce font size in Custom Fields.

Once you're set up: explore available retro stream kits on the last page.

 **Install to StreamElements**

► **Video walkthrough** [youtube.com](#)

1 Click the install button above
Sign in with StreamElements on the share page, then install the overlay to your dashboard. Keep your current overlay while you set up this one.

2 Customize in your overlay editor
Open My Overlays, click the widget layer, then use the left panel fields to adjust colors, fonts, and layout.

3 Copy overlay URL, add it in OBS
Copy the overlay URL, add a [Browser Source](#) in OBS, paste it in, then set the width and height to match your layout.

CUSTOM FIELDS REFERENCE

These are the settings available in your widget's Custom Fields panel. Exact fields vary by widget. This page shows a curated sample only. More settings are available inside the full customization menu in Streamlabs and StreamElements.

Smooth scroll	YES	Fade old messages at top	ON
Message limit	ON	Auto-hide messages	OFF
Show pronouns (via pronouns.alejo.io)	OFF	Show badges	ON
Username font weight	BOLD	Message font weight	REGULAR

COMMON ISSUES

Widget not showing in OBS?

Make sure the Browser Source URL is correct and dimensions are set. Try refreshing the source (right-click, then Refresh). Check that your stream is live or use a test chat message.

Chat messages look cut off or overlapping?

Increase the Line Height value or decrease Font Size in Custom Fields. You can also try increasing the Browser Source height in OBS.

Colors don't match the preview?

In OBS, right-click the Browser Source, go to Properties, and set Blending Method to SRGB Off. This prevents OBS from altering your widget's color output.

Existing widget got overwritten?

Streamlabs only supports one custom widget per theme. Create a new theme before installing, or back up your current widget's code first.

Need Help?

If you run into any issues not covered above, reach out and we'll get you sorted.

EMAIL **info@senergygroup.org**

RESPONSE **Within 24 to 48 hours**

ONCE YOU'RE SET UP

Your next retro setup.

Explore another retro look.

Browse available stream kits, including Retro Messenger. Preview each theme and check its platform support to find a look you like.
