

DESKTOP STICKY NOTES CHAT WIDGET

# Settle in, start streaming.

Thank you so much for your purchase. This little guide will walk you through setup, customization, and getting everything just right. Take your time.

WIDGET PREVIEW

[Streamlabs](#)[StreamElements → Page 3](#)

## STEP 1 - INSTALL

[↓ Install to Streamlabs](#)

1

### Click the install button above

Streamlabs will prompt you to select a theme. The widget installs automatically. No files or code needed.

2

### Customize in Custom Fields

Open your Streamlabs dashboard, go to Custom Widget, then open [Custom Fields](#) to adjust colors, fonts, sizes, and layout. Hit [Save Settings](#) when done.

3

### Copy your Widget URL

Click the [Link](#) icon in the top-right corner of the Streamlabs widget editor to copy the URL to your clipboard.

4

### Add to OBS as a Browser Source

In OBS (or Streamlabs Desktop), add a new [Browser Source](#) and paste your Widget URL. Set the width and height to match your layout.

## PRO TIPS

**Cropping:** Hold ALT and drag the edges of the Browser Source in OBS to crop the visible area.

**Color accuracy:** Right-click Browser Source, then Properties, then Blending Method, then set SRGB Off

**Chat cut off?** Increase line height or reduce font size in Custom Fields.

↓ Install to StreamElements

- 1

Click the install button above

StreamElements will prompt you to install the overlay. Click Install overlay to add it to your dashboard.
- 2

Customize in your overlay editor

Open My Overlays, click the widget layer, then use the left panel fields to adjust colors, fonts, and layout.
- 3

Copy overlay URL, add it in OBS

Copy the overlay URL, add a Browser Source in OBS, paste it in, then set the width and height to match your layout.

CUSTOM FIELDS REFERENCE

These are the settings available in your widget's Custom Fields panel. Exact fields vary by widget. This page shows a curated sample only. More settings are available inside the full customization menu in Streamlabs and StreamElements.

|                                                                                                |                |                       |              |
|------------------------------------------------------------------------------------------------|----------------|-----------------------|--------------|
|    Messages | WIDGET SETTING | Message Stack         | PICK OPTION  |
| Entry Animation                                                                                | PICK MOTION    | Smooth Scroll         | PICK OPTION  |
| Top Fade Mask                                                                                  | PICK OPTION    | Message Limit         | PICK OPTION  |
| Max Messages                                                                                   | SET AMOUNT     | Auto-Remove Messages  | PICK OPTION  |
| Remove After (seconds)                                                                         | SET AMOUNT     | Max Lines per Message | SET AMOUNT   |
| Show Pronouns                                                                                  | SHOW OR HIDE   | Show Badges           | SHOW OR HIDE |
|    Colors   | WIDGET SETTING | Streamer Name Color   | PICK COLOR   |
| Mod Name Color                                                                                 | PICK COLOR     | VIP Name Color        | PICK COLOR   |
| Sub Name Color                                                                                 | PICK COLOR     | Default Name Color    | PICK COLOR   |
| Widget Background                                                                              | PICK COLOR     | Message Text Color    | PICK COLOR   |
| Paper   Note Style                                                                             | WIDGET SETTING | Sticky Note Color     | PICK COLOR   |

## COMMON ISSUES

### Widget not showing in OBS?

Make sure the Browser Source URL is correct and dimensions are set. Try refreshing the source (right-click, then Refresh). Check that your stream is live or use a test chat message.

### Chat messages look cut off or overlapping?

Increase the Line Height value or decrease Font Size in Custom Fields. You can also try increasing the Browser Source height in OBS.

### Colors don't match the preview?

In OBS, right-click the Browser Source, go to Properties, and set Blending Method to SRGB Off. This prevents OBS from altering your widget's color output.

### Existing widget got overwritten?

Streamlabs only supports one custom widget per theme. Create a new theme before installing, or back up your current widget's code first.

## ⚠ IMPORTANT: STREAMLABS USERS

Installing this widget will replace any existing custom widget in the selected theme. Always create a dedicated theme or back up your current widget before installing.

## Need Help?

If you run into any issues not covered above, reach out and we'll get you sorted.
